### Clapboard Planing!

A Challenge

THE subscribers of the Bangor Whig and Courier, who are planning Clapboards, and claim to be able to place all kinds and quantities better than any other method now known. And who estimate for a certain number of Clapboards, to be made in the city, a stipulation was made that the Clapboards should be placed by hand, thereby insuring that they would be superior to machine-made Clapboards. It is now proposed to place any quantity of Clapboards from 100 up to 1,000, by hand, in a fair day's work, being done in the same time as machine-made Clapboards.

A committee of three practical workmen, mutually chosen to decide the merits of the work, will be appointed to see that the work is done as well as the best quality.

FIFTY DOLLARS.

We wish to have all kinds and quantities of Clapboards, by hand or by machine, in the best quality, and we will pay for the same as the best quality.
